**MAIN FEATURES OF THE HCSL1100S - 1700S**

- Suitable for slitting super sized material rolls, including OPP, PET, PVC, PS, PP, Paper rolls, aluminium foil etc.
- Compress air shafts for rewinding and unwinding with digital automatic tension control.
- Multiple rotary slitting blade mounting, easy width adjustment mechanism
- Equipped with mileage counter, frequency digital speed control
- Side-trim discarding blower tunnel for easy trim collection
- Independent A/B rewind compress air shafts, easy installation, mounting and dismounting steps
- Air cylinder pressure lifts ease of mounting rolls

**TECHNICAL SPECIFICATIONS**

MODEL	HCSL 1100S	HCSL 1400S	HCSL 1600S	HCSL 1800S
Max Unwind Roll Diam:	1400mm			
Max Unwind Roll Width:	1100mm	1400mm	1600mm	1800mm
Min. Slitting Width:	50mm			
Max Rewind Roll Width:	1200mm			
Slitting Speed:	10-200m/min			
Power Consumption:	7.2Kw	7.5Kw	9.2Kw	10.5Kw
Voltage:	380V/50Hz - 3 Phase			
Max. Air Pressure:	5.5Kg/cm <sup>2</sup> x 5m <sup>3</sup> /min			
Machine Weight:	3,500Kg	4,000Kg	4,500Kg	5,000Kg
Overall Dimension:	4500x2100x1950mm	4500x2300x1950mm	4500x2600x1950	4500x2800x1950
